Dear Paul:

I am just sending you a note to express how thankful I am for all your help in the past few months. Before The Credit Defense League I was drowning in debt and I felt that I had exhausted all my options. But I just could not bear all the threatening calls from collection agencies that I was considering bankruptcy. I was in financial ruin! I was distraught by this because, as a hard working parent of two toddlers, this was not a way to secure a better future for my daughters.

Paul, since working with you I have been compensated \$ 1,500.00, with the help of one of your attorneys, from debt collectors that were violating the Federal law. With your advice and help I have been successful in getting a couple of suits stopped and a judgment removed. When I read on your website that the tables would be turned in my favor...I thought "impossible in my case" but you have showed me that it is NOT too good to be true!!!

Your program thus far has given me hope of having a life free of debt. You truly understand what hardships these debt collectors put on hard working people. On several occasions I would contact these debt collection companies to work out a payment plan as offered on their letters. But each time these collection companies would only make demands of payments right there and then and would only continue to threaten me and belittle me. I am blessed to have been given the opportunity to have your assistance and that of The Credit Defense League.

I am amazed by the results achieve in just four months and can't wait to share this success with anyone that may feel that there is no hope for financial freedom.

Thank you so much for giving me hope!!!!

Respectfully,

Teresa D Guevara
